Hy-Lok Cryogenic Valves Needle, Ball Valves

Catalog No. H - CRYO100 May. 2007

Quality System Certificates

- ISO 9001
- ASME QSC
- API Q1 & 6D

HSE Management Certificates

- ISO 14001
- OHSAS 18001

Type Approval Certificates

LR (Needle)

Type Approved Contillinate

Take a series for the contillinate of the contillinate of

LR (Ball)

ABS

Pioneer in development of cryogenic valves for LNG, Hy-Lok is always keeping its Valves on the cutting edge of technology to provide high performance valves to the great satisfaction of its clients as attested by numerous references.

CRYON Series Needle Valves

Introduction

CRYON series valves have been designed and engineered for use at pressures up to 750 psi (52 bar) and temperatures down to -320 °F (-196 °C). (Stainless Steel extended needle valve with the non-rotating disc design for bubble tight shutt-off)

The valve is of the bolted bonnet easy maintenance in-line, with lower bolting torques than union bonnet. Screwed, flanged, butt-weld ends are in standard connection and both reduced and full bore are available from 1/2" to 1-1/2" size.

Features and Benefits

- Austenite Stainless Steel construction for marine service
- Long cycle life, packing bleow thread design
- Metall seat to bubble tight shut-off at all the time
- Anti-blow out proof stem, one piece design
- Non rotating seat contact
- Easy maintenace in-line guarantee
- Compact and easy operation
- Self aligning disc construction
- Bolted extension bonnet
- Dust cap functions as position indicator as well
- Fire safe design to BS 6755 Part 2

Specifications

- Pressure Rating

750 psi (52 bar) at -320 °F to 100 °F (-196 °C to 38 °C)

- Temperature Rating
- 320 °F to 700 °F (-196 °C to 371 °C)
- Size Range

Screwed ends: 3/8" to 1" Flanged ends: 1/2" to 1-1/2" Butt - weld ends: 1/2" to 1-1/2"

Pressure Tests

- Ambient Test(100%): Nitrogen

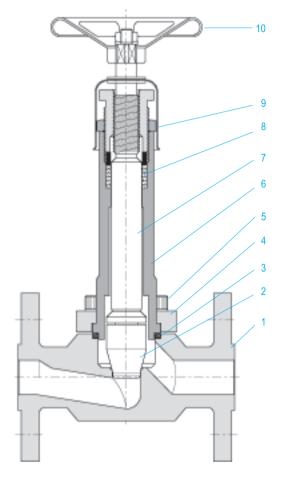

Shell Test: 1.5 times working pressure Seat Test: 1.1 time working pressure

- Cryogenic Test(10%): Helium

Shell Test: 1.5 times working pressure Seat Test: 1.1 times working pressure

Applications

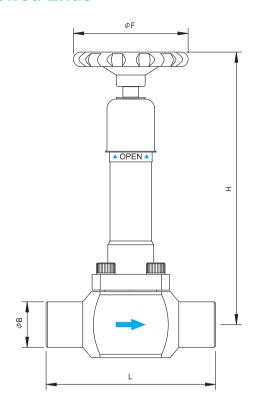

- Cryogenic, LNG, LPG, and Nitorogen

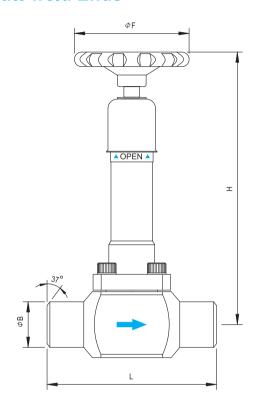

Materials of Construction

No.	Description	Material
1	Body	ASTM A182 F316 / A351 CF 8M / 3M
2	Non Rotating Disc	ASTM A479 TP316
3	Bonnet Gasket	Graphite & SS 316
4	Bolted Bonnet	ASTM A479 TP316 / A351 CF 8M
5	Bonnet Bolt	ASTM A320 B8M.2
6	Extension Bonnet	ASTM A479 TP316
7	Extension Stem	ASTM A479 TP316
8	Stem Packing	Graphite
9	Position Indicator	SS 316
10	Hand Wheel	ASTM A240 TP304

CRYON Series Needle Valves

Ordering Information

The correct ordering number is easily derived from the following numbering system. The four designators required are coded as shown below. *Note: if the inlet snd outlet connections are the same, eliminate the inlet connection designator.

Numbering System

Example:

Introduction

CRYOT series valves have been designed and engineered for use at pressures up to 750 psi (52 bar) and temperatures down to -320 °F (-196 °C). (Stainless Steel extended ball valve with trunnion mounted ball) The valve is of the top entry bolted bonnet easy maintenance in-line. Screwed, flanged, butt-weld ends are instandard connection and both reduced and full bore are available from 1/2" to 1-1/2" size.

Features and Benefits

- Austenite Stainless Steel construction for marine service
- Long cycle life
- trunnion mounted ball
- Pressure relief device
- Anti-blow out proof stem, two-piece ball & stem
- Anti-static device
- Easy maintenace in-line guarantee
- Low operating torque
- Positive handle stops
- Bolted extension bonnet
- Locking device
- Fire safe design to BS 6755 Part 2

Specifications

- Pressure Rating

750 psi (52 bar) at -320 °F to 100 °F (-196 °C to 38 °C)

- Temperature Rating
- 320 °F to 250 °F (-196 °C to 120 °C)
- Size Range

Screwed ends : 3/8" to 1" Flanged ends : 1/2" to 1-1/2" Butt - weld ends : 1/2" to 1-1/2"

Pressure Tests

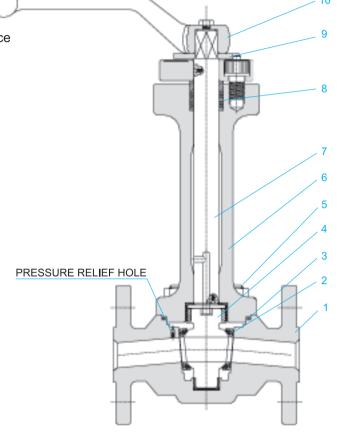

- Ambient Test(100%): Nitrogen Shell Test: 1.5 times working pressure Seat Test: 1.1 time working pressure

- Cryogenic Test(10%): Helium

Shell Test: 1.5 times working pressure Seat Test: 1.1 times working pressure

Applications

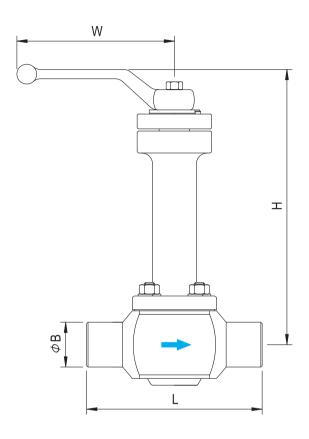

- Cryogenic, LNG, LPG, and Nitorogen
