Date : April 1st 2016

To : HY-LOK EUROPE
Attn : Mr. Erik Nordholt

Sub : Technical compliance of 110 Series ball valve.

We, Hy-Lok Corporation, hereby confirm that 110 series ball valve shall be used up to 2,000psig pressure, if used seat material is "PEEK".

Since "PEEK" is one of the 110 series' seat material option and spare part, there is no 2,000pisg marking on the product.

Sincerely yours,

HY-LOK CORPORATION
